TEMPERATURE CONTROL

- By default, the button starts in red (60°C – highest heat).
- After 5 minutes, it automatically lowers to white (40°C) and maintains that level.
- This feature helps prevent overheating and saves battery power.

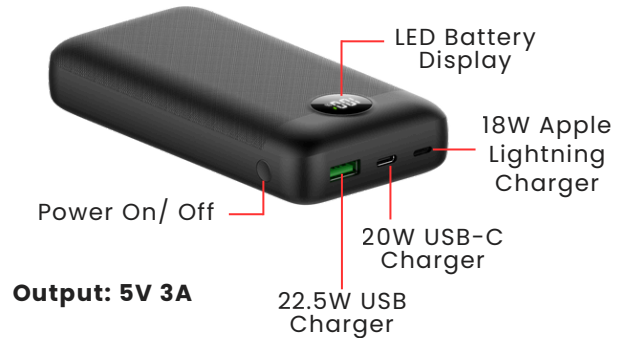

BATTERY PACK

**VERIFIED
CERTIFICATION**

20000 mAh

SAFETY NOTES & USAGE TIPS

1. Fully charge the battery pack before first use.
2. Select your preferred temperature level; avoid prolonged use on the highest setting.
3. Do not use while sleeping or on very young children.
4. Avoid use if the device, battery pack, or cables are damaged.
5. Avoid wearing in wet conditions; keep away from water and fire.
6. Stop use if you feel discomfort or overheating.
7. Store in a cool, dry place when not in use.
